

BUILDING MATERIALS SURCHARGE

EFFECTIVE IMMEDIATELY

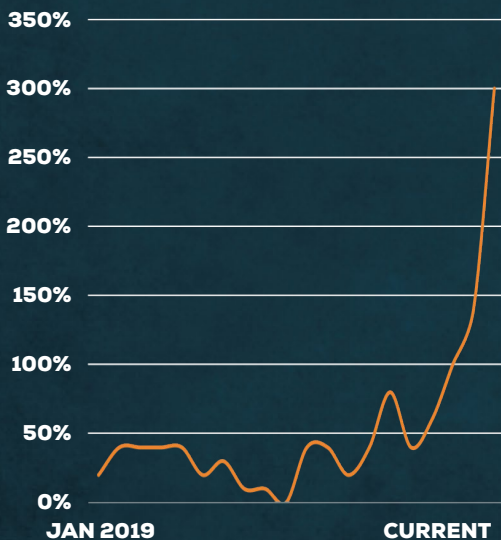

Due to sudden and unprecedented building materials cost increases resulting from record demand as well as material shortages, Old Hickory Buildings has been forced to implement its first ever building materials surcharge to cover these ongoing cost increases. Delivery lead-times are also significantly extended in some areas.

This surcharge will be applied to the base price (not including add-on packages or options) you may find in brochures, on price sheets, inside buildings, on dealer websites or social media pages, or elsewhere. Please consult your local dealer for exact pricing and current lead times on your desired Old Hickory building. Lumber futures are uncertain, so the surcharge and/or our prices may change as the situation demands.
